

BallotBox README (

Version 1: https://projects.invisionapp.com/share/3J979MXBF#/202420419_Slice_1

Version 2: <https://invis.io/HP9J42Q5D>)

HOW TO USE: We used Invision to prototype. The Invision page emulates an Android tablet screen; the computer mouse emulates the user's finger. Invision highlights clickable areas; users can click on buttons to navigate the app.

WIZARD-OF-OZ & HARD-CODED FEATURES: Our quiz options are hard coded, as are quiz results. We also only have one measure available to read. This eventually will remain only for the ballot of Santa Clara County.

LIMITATIONS: We didn't allow for entering text in the prototype, or actually filling out the quiz. Our button to vote on an issue so that you can be taken to a voter summary is also missing, but we'll add that later.
